**Success Cases**

More than **CAD 50 million** in business created for members (last 3 years)

"The Chamber of Commerce Brazil-Canada [CCBC] is a very professional, organized and resourceful organization. IBI Group's experience with the CCBC is very positive and they were able to connect us with potential customers in various sectors in Brazil. The networking events organized by CCBC help us gain valuable information and increase our company's visibility in the market. The team at CCBC is amazing and very helpful, understanding our requirements and connecting us with the businesses in a very professional and timely manner."

**Muddassar Cheema (Director Corporate Development)**

"Genetec was established in Brazil in 2012 and we were not known in the market at that time. The association with CCBC helped us to have access to several companies, entities and government agencies, because it gave us credibility. Today, more than 8 years later, CCBC still plays an essential role in presenting our solutions to several verticals, which we have not even considered before, such as Agribusiness for example, making Genetec do Brasil a pioneer in the sale, not of products, but solutions for specific markets."

**Denis André Côté (Vice-President Latin America)**

"I've been very pleased by the help I have received in the last 4 years. The CCBC team has demonstrated excellent capacities in finding the right contacts for me and my clients. They were very efficient in identifying clients, suppliers and partners. The networking activities organized by the chamber had a big impact on my ability to get in touch with valuable contacts. I strongly recommend to any Canadian company to rapidly become a member of the CCBC if they plan to do business in Brazil."

**Etienne Beaugard (Owner)**
